Ok. Are you ok with me emailing that language to Dave and Dennis and letting them know they can contact you if they have specific questions? I want to see how they react to that and if they are things Veolia is willing to readily add to the SOPs.

I want to try and get a sense this morning of whether or not we are going to send them the conditional approval or not. Last night we decided that we will not be granting an extension of the testing date. If they want to argue points about the QAPP/SOPs, Veolia will simply have to be late on their public notice, and we will use enforcement discretion to determine whether or not we will cite them for a violation of that.
